Employee Services: Learning Resources

Employee Services provides several learning systems you can access to develop your professional skills and expertise. These resources range from articles and books, to online courses and videos. Some options also offer opportunities for professional certification.

Skillsoft	in LEARNING	coursera	FranklinCovey.
Online courses of professional interest, including required training, custom courses, ILT registrations, and books.	Online courses with engaging content from industry-leading practitioners and expert instructors.	Self-paced massive open online courses (MOOCs) and specializations taught by CU faculty from all four campuses.	In-person workshops facilitated by campus representatives.
