

Timekeeping Replacement Project

Discovery Phase

GOAL: To have an initial discussion and information gathering session on the timekeeping processes and applications that CU Anschutz schools/departments support

FINDINGS

The following findings were collected from this phase.

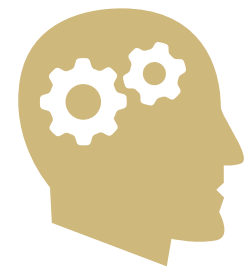

81

Interviews

255

Departments

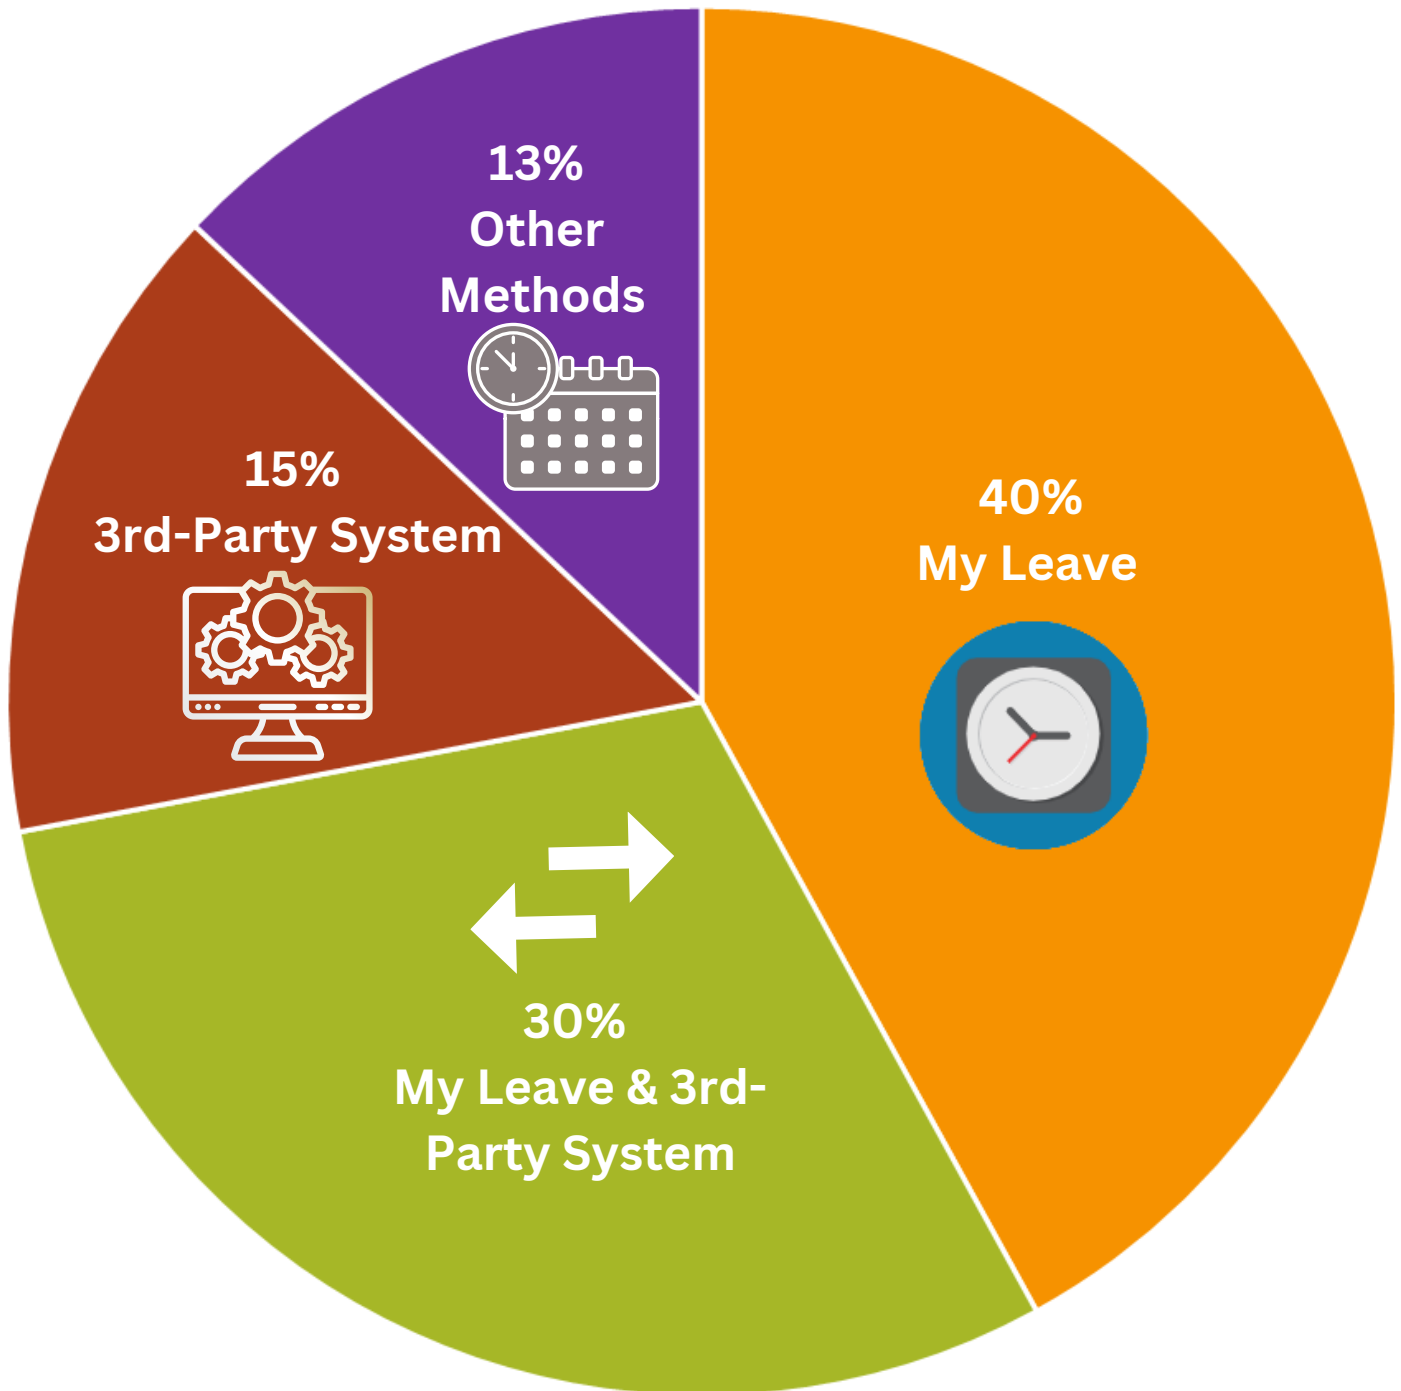

124

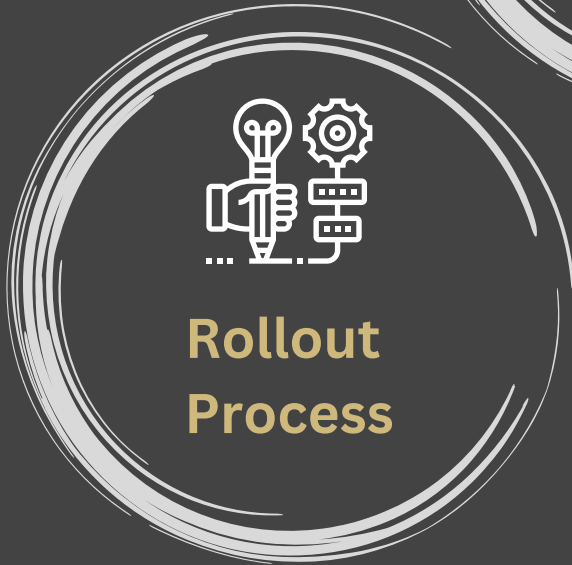

Subject Matter
Experts Identified

Primary TimeKeeping Methods by Department

Project Feedback

The stakeholders whom we have interviewed frequently indicated that they would like to receive sufficient support for this change initiative. The most requested support elements include explaining why the change is happening, incorporating a pilot and feedback process, providing sufficient training and support, and selecting a timekeeping system that meets CU Anschutz's unique needs.
