# CU ANSCHUTZ MEDICAL CAMPUS

The University of Colorado Anschutz is a world-class medical destination at the forefront of transformative science, medicine, education and patient care. The campus encompasses the University of Colorado health professional schools, more than 60 centers and institutes, and two nationally ranked independent hospitals - UHealth University of Colorado Hospital and Children's Hospital Colorado - that treat more than two million adult and pediatric patients each year. Innovative, interconnected and highly collaborative, the CU Anschutz delivers life-changing treatments, patient care and professional training and conducts world-renowned research fueled by over \$704 million in research grants.

## About our partners

# SKAGGS SCHOOL OF PHARMACY & PHARMACEUTICAL SCIENCES

The Skaggs School of Pharmacy and Pharmaceutical Sciences at the University of Colorado Anschutz is dedicated to advancing pharmaceutical sciences through innovative research and education. Their research focuses on discovering drug targets and therapeutic agents for the prevention, diagnosis, and treatment of various human diseases, including cardiovascular disease, cancer, infectious diseases, neurologic disorders, psychiatric conditions, and more.

The school employs cutting-edge strategies such as computational drug screening, structural biology, and advanced analytical tools to drive drug discovery and development. Additionally, they explore marine natural products as potential drug molecules in collaboration with the Scripps Institute of Oceanography.

Innovation and commercialization are key aspects of their mission, overseen by Dr. Melanie Joy, PharmD, PhD. She facilitates entrepreneurship activities, guides pathways for commercialization, and develops partnerships to support innovation within and outside the school. The school also hosts seminars and bootcamps to foster entrepreneurial thinking and expand technologies toward commercialization. ## About us

# CU ANSCHUTZ INNOVATIONS

We bring together industry partners, entrepreneurs, and investors to help CU Researchers create biomedical technology that improves the quality of life worldwide. With expertise in patents, copyrights, and licensing, CU Anschutz Innovations translates discovery into impact through transparent, flexible, best practice intellectual property management services.

Located on University of Colorado Anschutz Medical Campus, Innovations provides access to an extensive portfolio of biomedical technologies, clinical validation opportunities, and resources for startup development.

Let's start a conversation.
