Clinical Ethics

Jackie Glover, PhD and Brian Jackson, MD

Tuesdays, 5:00 – 8:00 PM

On-line Seminar

The goal of the Clinical Ethics course is to introduce students to the theory, methods, history, and application of clinical ethics. It will provide a broad overview of clinical ethics while encouraging students to engage deeply with typical cases (including their own) encountered in clinical ethics. Instructors include a physician/ethicist and a philosopher/ethicist who both do ethics consultation at area hospitals.

Enrollment Open to Both Certificate and Non-Certificate Learners

Non-Certificate learners require faculty pre-approval to register.
