

Introduction to Public Health Ethics

Professor Daniel S. Goldberg, JD, PhD

Public health ethics involves a systematic process to clarify, prioritize and justify possible courses of public health action based on ethical principles, values and beliefs of stakeholders, scientific evidence, economic, social, legal and environmental factors to promote and protect people's health.

Elective: Spring Semester, 2020

Wednesday Evenings
starting January 22nd
5:00 – 8:00 PM
HEHE 5655 / PUBH 6655
3 credit hours
