

# Unexpected Insights: A Conversation Series with Jewish Women in Medicine

Presented by the Helen Morris

American Jewish Experience in Medicine Program

## Resilience & Reflections: A conversation with Lilly Marks

A child of Holocaust survivors, Lilly Marks' parents couldn't help with her homework – but they gave her indelible lessons on surviving adversity and shouldering responsibility. From practicing balancing her parents' checkbook in 5th grade, she would go on to become a member of the Federal Reserve Bank Board of Directors, an author of a key section of the Affordable Care Act, Vice President for Health Affairs at the University of Colorado, and a key player in building today's thriving Anschutz Medical Campus. Join us for a rare personal conversation about her extraordinary life.
