

Research Rounds

Examining breakthrough research in bioethics

Developers' perspectives on harms of machine learning for health care: "You're not allowed to fail with people"

Dr. Cho will present findings from interviews of developers from a range of companies developing machine learning-based tools for health care, with analysis of their perspectives on potential harms of their work and responsibilities to mitigate those harms.

Mildred Cho, PhD

Professor of Medicine and Pediatrics, Stanford University and
Associate Director, Stanford Center for Biomedical Ethics

Monday, October 3rd

Noon-1:00pm (Mountain Time)
