Charles Perkins Centre, MOOC: *Easing the Burden of Obesity, Diabetes, and Cardiovascular Disease* <https://www.coursera.org/learn/easing-the-burden-of-obesity-diabetes-cvd/home/welcome>

In 2006-07, I received funding (See Grants and Awards) to develop a curriculum on the marketing practices of the pharmaceutical industry and disseminate it in open access materials, including podcasts, video and UCTV. This included development of a CME program on the marketing of medicine. The CME program was presented live and is available as an open-access web-based course launched in 2008. "Marketing of Medicines" is available for free at <https://www.cme.ucsf.edu/cme/CourseDetail.aspx?coursenumber=MED11006>. The lectures for this course area also available on YouTube.

My previously developed course, CP124 (Study Design Evaluation), has also been exported. The course has been translated into Spanish and is taught by Dr. Joaquin Barnoya at the Cardiovascular Unit of Guatemala (2005 – now).
