

Colorado Biomedical Informatics Summer Training Fellowship

The Colorado Biomedical Informatics Summer Training Fellowship Program for underrepresented populations will introduce computer science students from diverse, disadvantaged and traditionally underrepresented groups to PhD level research career opportunities in Biomedical Informatics.

Students will participate in an summer research program that includes:

- Biology for computer scientists
- Ethics for Biomedical Informatics
- Scientific communication workshop
- Research rotation culminating in a presentation

Program Dates: June 6 through July 29, 2022

Eligibility: Research students will be selected on the basis of academic achievement and interest in biomedical informatics. Applicants must have completed at least one year of undergraduate coursework in Computer Science with a 3.0 GPA and must be a US citizen or permanent resident.

Application Includes:

1. Online application form <https://www.cuanschutz.edu/docs/librariesprovider233/compbioscience/2021-colorado-biomedical-informatics-summer-training-fellowship-application.pdf>
2. Two letters of recommendation
3. Personal statement of interest in a biomedical informatics career
4. A current transcript

APPLICATION DEADLINE: Applications will be reviewed on a rolling basis but should be submitted no later than April 15, 2022

Stipend: Student will receive a \$5,000 stipend for living expenses.
