Bolsas de Plastico

Garbage
Basuro

Put Everything In One Container!
Single Stream Recycling
No More Sorting

*Waste Management Recycle America's (WMRA) ability to accept plastics as a recyclable commodity is dictated by market demand. When there is no demand it limits our outlets. WMRA accepts plastics #1-7 at all times, however they must be rinsed out and clean. Plastic items that can not be accepted are food trays, film canisters, plastic bags, automotive chemical containers (motor oil and antifreeze containers), pesticide containers, and unnumbered plastics.
